

SELF-ADHESIVE DECORATION AND PROTECTIVE FILMS

BOAT WRAP
CATALOGUE

WHO IS HEXIS?

HEXIS are a leading manufacturer of self-adhesive films intended for visual communication.

HEXIS invest 3% of its turnover for R&D and employs 350 staff members worldwide. Since 2005 HEXIS has been ISO 9001 certified for its Quality management system.

The company specializes in high-performance cast PVC, polyurethane and latex films. These films are made for professionals in digital printing, signage, visual communication, vehicle wrapping and textile marking.

The HEXIS Group have an international presence throughout its subsidiaries in the French West Indies, Germany, Italy, Spain, Sweden and a distribution network over the five continents.

On its main site in France, HEXIS are proud to have created a cutting-edge R&D laboratory with the latest scientific equipment. It boasts an innovative development process for multi-layered cast films combined with a structured adhesive which avoids creases and helps evacuate bubbles during the application.

APPLICATION STEP BY STEP

MARINE PROFESSIONALS' BEST CHOICE:

- ▶ Hull: Skintac HX20000 / HX30000 series; HX190WG2 + PC500G2 laminate
- ▶ Stripes for decoration: Suptac S5000 series
- ▶ Sails: VCSR100WG1 or VCXR200WG1
- ▶ Indoor & outdoor application with various aspects [gloss, matt, alligator, carbon, leather...]

FOR PROTECTION:

- ▶ BODYFENCE
- ▶ VRK for marine stickers

1 PREPARE THE HULL

- ▶ Remove as many fittings as possible to ease the application
- ▶ The hull surface must be smooth and non-porous
- ▶ The hull must be cleaned using a suitable liquid

2 FILM APPLICATION

- ▶ The hull can be fully or partly wrapped
- ▶ Large choice of colours
- ▶ The film adapts to the hull shape thanks to its conformability
- ▶ Possible to combine coloured films and printed films

3 CUTS

- ▶ The film is cut around the various accessories
- ▶ The fittings can be removed and reinstalled
- ▶ The edges are sealed with a varnish
- ▶ Wait for 24 hours before launching in the water

THE BENEFITS OF SELF-ADHESIVE FILMS

▶ COST SAVING

Up to 70% depending on the boat size
No need to put the boat in a booth
No need to remove the mast
No drydock needed => no surveillance fees

▶ TIME-SAVING

For a similar 15 m boat: 2 days to wrap / 3 weeks to paint
Take advantage of the annual refit to give your boat a new look

▶ DURABLE

Durability comparable to painting for standard recreational use

▶ SLIDING

Skippers report that a full wrap is lighter than a complete painting and has higher sliding properties

▶ UNIFORM

It is difficult to achieve colour uniformity over large surfaces with conventional painting, it is not an issue with HEXIS self-adhesive films

▶ RESALE

Give a fresh look to your boat before reselling it with a minimal investment

▸ CARING

The film offers an additional protective layer which, when removed, leaves the hull like brand new

▸ RENOVATING

Painted boats can be polished only for a limited number of times (gel coat layer is thin). Renovating even an old hull is possible with Hexis

▸ COMPATIBLE

No counter-indications! Compatible with standard polyester gel coat, polyurethane varnish, steel and aluminum hulls ...

▸ CUSTOMIZED

An excellent customization-on-demand solution for professional sellers

▸ REMOVABLE

Easy removal to change the style to suit your mood

▸ ENVIRONMENT FRIENDLY

No health, safety and environmental impact as opposed to paint

Sablè

GLOSS AND MATT FILMS

The HX20000 is made of a multi-layered cast vinyl with a thickness above 100-micron and a HEX'Press adhesive liner allowing fast air egress and easy application.

This product is specifically designed for full wraps but also for markings on boats, vehicles, objects ...

Thanks to its thickness, the film keeps its colour even when stretched.

Most importantly, HX20000 is easy to apply thanks to its structured adhesive which facilitates air and bubbles egress.

TEXTURED
FINISHES

The specific structure of our HX30000 combining a multilayered cast vinyl film with our famous HEX'Press release liner allows easy and fast repositioning of the film during the application.

The film has been especially designed for vehicle decoration [boats, cars, motorbikes, jet-skis etc.] and objects [furniture, household appliances etc].

Its thickness allows for a sustainable colour and the carbon, alligator, leather and brushed aluminium finishes boast great textured surface effects.

BODYFENCE

PAINT PROTECTION FILM

PAINT PROTECTION FILM

With its 150µm thickness, its efficiency is irrefutable : scratches and stone chips are over! This polyurethane film also prevents the paint from ageing under sunlight exposure. The film can be removed and replaced without altering the original hull paint. This invisible film keeps your boat hull in perfect condition and thus avoids expensive painting work, especially for resale.

- ▶ Protection of waterlines
- ▶ Protection of sensible areas exposed to rubbing / frictions by fenders
- ▶ Protection around exhaust pipes
- ▶ Protection of indoor areas sensitive to scratches
- ▶ Matt or gloss finish

Your boat is...forever young!

NEW GENERATION PROTECTIVE FILM

KEY BENEFITS OF THE BODYFENCE

1-SELF-HEALING

If the surface is scratched, the BodyFence protective film will regenerate with the help of heat from the sun or hot water.

2-ULTRA TRANSPARENT

The BodyFence protective film is a highly transparent film developed to protect the boat without altering its appearance.

3-SELF-CLEANING

The BodyFence protective film contains an anti-adhesion component. Thus, dust and dirt will adhere much less to the hull of your boat. Cleaning will be less frequent and significantly easier.

4-CONFORMABILITY

HEXIS have developed an easy-to-apply film. Thanks to BodyFence, you will save 30 % on the application time, due to its high conformability and ease of application.

5-DURABILITY

The HEXIS BodyFence is guaranteed for 7* years against:

- ▶ Yellowing
- ▶ Cracking

6-EASY INSTALLATION

Due to its technical performances, this film offers easy application, with no creases and no traces.

NEW GENERATION PROTECTIVE FILMS

WITH OUR NEW VRK
LAMINATES, YOU CAN
PROTECT YOUR SPEED
BOAT AND JET-SKI

VRK series are optimised for the cold lamination of digital prints intended for short term marking kits on motorbikes, off-road vehicles, water crafts and other sports equipment... These strong laminates are specially engineered to protect logos and graphics while maintaining optical transparency.

- ▶ Optically clear
- ▶ High thickness
- ▶ High adhesive properties
- ▶ Resistant to abrasion and rubbing

VRK LAMINATES FOR STICKERS

- ▶ 300µm : **VRK300B** GLOSS FINISH AND **VRK300M** MATT FINISH
- ▶ 480µm : **VRK480B** GLOSS FINISH

- ▶ Intermediate calendered PVC film
- ▶ Pressure-sensitive solvent-based acrylic adhesive
- ▶ Recommended digital printing vinyl: VCXR200WG1 with extra-reinforced adhesive

SOLAR FILMS

Solar films applied on windows and portholes protect against sun-rays and offer optimal security. The main benefits of HEXIS solar films are:

- ▶ Customisation and enhanced aesthetics
- ▶ Protection from prying eyes
- ▶ Better window resistance if broken
- ▶ Heat reduction in cabin area
- ▶ Reduction of UV impact [premature cabin-ageing]

STYLE REFLECTS PERSONALITY

CHARCOAL

TITANE

HEXIS ADVICE: the lighter colour your boat is, the darker the solar film should be

CHARCOAL

- These films are specifically intended for high-end products
- They allow for worry-free sailing, protecting any valuables in your cabin from curious onlookers (radio, laptop, precious objects, etc)
- Transparent black

TITANE

- The Titane range is specifically intended for dark-coloured boats
- These films give a fresh and cosy look to the cabin with an additionally spectacular improvement to the indoor comfort
- Transparent silver-grey

WHY CHOOSE HEXIS SELF-ADHESIVE FILMS?

- ▶ Films are conformable and can be applied on any surface, including the most complex
- ▶ Covered surfaces are waterproof and easy to clean
- ▶ As opposed to paint, HEXIS films do not require much drying time and leave no harmful and unpleasant smells
- ▶ Our films can recreate textured surfaces such as alligator skin, leather or carbon fibre

OURS COLOURS
YOUR IDEAS
VARIOUS LOOKS!

- ▶ HEXIS boasts a catalogue with over 150 colours and effects [opaque, transparent or textured]
- ▶ HEXIS quality: our films are manufactured using top-quality raw materials and pigments which guarantee long-lasting colours and impressive sustainability
- ▶ For your windows and glass, HEXIS offer a choice of transparent, translucent and etched-glass films
- ▶ Easy to apply: redesign your interior without any work!
- ▶ Versatile: HEXIS films can be applied on all substrates or existing furniture
